

Provider Communication

Subject: Georgia Pediatric Program/ Determination Letter of Approval (LOA)	Priority: High
Date: April 15, 2010	Message ID: ACSBNR04142010_1

Dear Provider,

Re: Prior authorization of CNA or skilled nursing hours for Medicaid members receiving GAPP in-home nursing services

GAPP in-home nursing service providers will submit requested hours with all prior authorization documentation in five day per week format or seven day per week format. Prior authorization for service will be generated in the form of hours/month based on the requested weekly format and medical necessity review. Providers will describe the approved hours to families as a monthly maximum, allowing families to configure hours within the monthly context. GAPP Calculation Worksheets will be returned to the provider agency along with the Determination Letter of Approval.

Thank you for your continued participation in the Georgia Medicaid Program.
